

# THE OLD BARN

DRINKS LIST

# WHISKY

## HIGHLANDS

While malts from the northern Highlands are more salty with notes of seaweed, the whiskies from the east are dryer with more body and a little smokiness. Their counterparts from Perthshire are cleaner, lighter and sweeter.

## SPEYSIDE

Speyside is a small part of the Highland region, located around the river Spey in the northeast of Scotland. Speyside Malts are very rich and complex whiskies with notes of fruits, honey, toffee and chocolate.

## CAMPBELTOWN

Campbeltown was home to more than 30 distilleries, now home to only 3. The malts tend to be dry, full bodied with a distinct smokiness and salty notes.

## LOWLANDS

Lowland Malts are generally lighter in body and flavour than their counterparts from other regions. They tend to be gentle and subtle, fragrant with herbal and grassy flavours and usually have a relatively dry finish. Since they are not, or only slightly, peated they are an excellent choice for beginners.

## ISLAY

Heavily peated, very pungent with notes of salt and seaweed on the palate, they sometimes seem to be more of a medicine than a whisky.

## ISLANDS

The island region includes all Scottish islands except Islay.

Island malts are hard to define since they all have their own individual style. Most of them are peated but less so than the malts from Islay and they are generally complex and powerful drinks, with spicy and seaweed notes.
